SUBHABRATA DAS

Flutter Developer | AI-Powered Application Specialist

Kolkata, India • Phone: +91 6294321171 • Email: subhabratadash1@gmail.com • LinkedIn: linkedin.com/in/subhabratadash • GitHub: github.com/subhabratadash20 • Portfolio: subhabratadash20.github.io

PROFESSIONAL SUMMARY

Results-driven **Flutter Developer and AI-Powered Application Specialist** with over **3 years** of professional engineering experience. Specialized in architecting high-performance cross-platform mobile apps, integrating advanced AI models (OpenAI GPT, Gemini 3.8 Flash, Claude, LangGraph), establishing autonomous agentic workflows, and implementing complex geolocation/geofencing systems. Proven track record of delivering scalable apps using Flutter, Dart 3, Node.js 22 LTS, PostgreSQL, and Firebase following Clean Architecture principles.

TECHNICAL SKILLS MATRIX

• **Mobile Development:** Flutter, Dart 3 (Sealed Classes, Records, Pattern Matching), Riverpod 3.3, GetX, Provider, Bloc, Clean Architecture, AutoRoute, GoRouter.

• **AI & Agentic Frameworks:** LangGraph Supervisor Agents, Tool-Palette Routing, OpenAI GPT & Realtime WebRTC, Gemini 3.8 Flash, Claude, FastAPI, Prompt Engineering.

• **Backend & Databases:** Node.js 22 LTS, FastAPI, PostgreSQL (Neon / Cloud SQL), Firebase Data Connect (GraphQL), Cloud Firestore, Redis, MongoDB Atlas, Hive (Local-First).

• **Geolocation & Hardware Bridges:** Google Maps API, Geofencing Radar, Real-Time Asset Tracking, iOS AlarmKit & EventKit (DND Bypass), Android AlarmManager Foreground Services.

• **Media & Monetization:** Agora WebRTC, Socket.IO Duplex, Mux RTMP Simulcast, Stripe Connect (Idempotent Split Payouts), Paystack, RevenueCat.

• **Languages & Developer Tools:** Dart, Python, Java, C, PHP, TypeScript, SQL. Cursor, Antigravity, Windsurf, Claude Code, Git, GitHub, CI/CD, Postman.

PROFESSIONAL EXPERIENCE

Software Developer — Weavers-web Solutions Pvt. Ltd. January 2023 – Present | Kolkata, India

- Engineered and maintained production-grade cross-platform mobile applications in Flutter and Dart for international clients.
- Integrated generative AI capabilities utilizing OpenAI, Gemini, and LangGraph platforms to deliver intelligent, user-aware capabilities.
- Implemented real-time asset tracking and geofencing capabilities for logistics-focused and on-demand dispatch systems.
- Applied Multi-Threading isolate concepts, memory profiling, and state management optimizations, reducing overall application load times by 30%.
- Collaborated closely with UI/UX designers and backend teams to achieve 60 FPS GPU frame stability and sub-second API latencies.

FEATURED PRODUCTION APPLICATIONS

Nora AI (naipa.ai) — Autonomous Agentic Assistant Flutter • LangGraph • FastAPI • AlarmKit

- Built full-stack personal AI assistant with LangGraph supervisor routing (graph_routing.py) and dynamic tool palette pruning.
- Engineered native OS hardware bridges (iOS AlarmKit for DND bypass, Android AlarmManager exact alarms) and duplex Socket.IO streaming.
- Constructed dual-persistence layer using PostgreSQL (Neon) for LangGraph state checkpointing and MongoDB Atlas for user data.

BluFix AI (ai.blufix) — Smart Home AI Diagnostics & Dispatch Play Store & App Store • Node 22 • Redis

- Engineered two-stage multimodal diagnostic pipeline analyzing photo and acoustic spectrograms to classify HVAC/appliance faults and cost estimates.
- Architected real-time Provider Radar matching certified technicians via GPS proximity algorithms and live Firestore event streaming.
- Implemented Node.js 22 LTS microservices with Redis concurrency locks and idempotent Stripe Connect split payouts.

Etana Oroko (com.etanaoroko.app / myetana.com) — Dual-Layer Social RTC Play Store & App Store • PostgreSQL • Agora RTC

- Pioneered dual-identity architecture: Firebase Data Connect (Cloud SQL PostgreSQL) for relational operations + Firestore for RTC.
- Built Agora WebRTC multi-party voice/video rooms with dynamic token rotation and low-latency broadcast overlays.
- Implemented Gemini 3.8 Flash automated content moderation, AI writing assistant, and vector-based community recommendation engine.

Rent Roll Pulse (com.rentroll.app) — Real Estate Valuation FinTech App Store & Play Store • GetX • PDF Engine

- Built financial valuation recalculation engine computing Annual Management Income (AMI) and AAMI multiplier formulas.
- Created instantaneous, high-DPI vector PDF financial audit report generator with custom financial charts directly on device.

Konnectax (com.konnectax.app) — Multi-Platform RTMP Simulcasting App Store & Play Store • Mux • RTMP

- Engineered simultaneous live broadcasting to YouTube, Facebook, and TikTok from a single mobile camera feed via Mux.
- Built unified cross-platform live comments overlay consolidating YouTube Live Chat and Facebook Comments in real time.

Plugg AI (plugg.social) — Lead Mobile Developer Clean Architecture • GetX • Hive • Socket.IO

- Engineered an AI-driven social and dating app with Get-it DI, Hive local-first storage, Socket.IO rich chat, and RevenueCat subscriptions.

Additional Shipped Applications: Stylaa (Salon Booking & AI Suggestions), Flinki (Sports Network & P2P Marketplace), Groundmetrx (Enterprise Logistics & LiDAR Fleet Tracking), DIY Marketplace (Bilingual Arabic RTL Marketplace), Family Bond, TradeMaza, MOTQAN.

EDUCATION & ACADEMIC CREDENTIALS

M.C.A. (Master of Computer Applications) — Swami Vivekananda University (SVU) 2026 | Completed
B.C.A. (Bachelor of Computer Applications) — Contai College / MAKAUT 2023 | 8.99 CGPA (High Honors)
Higher Secondary (10+2 Science) — WBCHSE | 81.0% (2020) • Secondary (10th) — WBBSE | 86.0% (2018)

PERSONAL DETAILS

Date of Birth: October 23, 2002 | **Father's Name:** Rajat Kanti Das | **Nationality & Gender:** Indian • Male | **Languages Known:** Bengali (Native/Fluent), English (Professional), Hindi (Conversational)

I hereby declare that all the information provided above is authentic and verified.
Place: Kolkata, India | **Date:** November 3, 2026
